## MOVING TO ZUG

Moving to Switzerland will pose many questions, such as the import of goods or provisions for pets.

Please check the entry requirements prior to moving through your relocation company or FSM.

## NEWCOMERS WELCOME

A popular event in every community is the annual meeting held to welcome newcomers. It provides new arrivals with the opportunity to learn about the community, the local authorities and get to know their neighbours.

## INSURANCE

In Switzerland there is a distinction between mandatory (social) insurance which is deducted directly from the salary and additional obligatory private insurances, including: health, accident, motor (liability, vehicle and passenger) and buildings. There are other insurances i.e. liability and rescue (REGA) which are recommended.

## ACCIDENT INSURANCE

Employees working more than 8 hours per week are insured by their employer. All other individuals (including spouses and children) need to arrange accident insurance in addition to their health insurance.

## OPENING AN ACCOUNT

Opening a bank or post office checking account is necessary for salary payments and bills etc. This can be easily done with the necessary identification (photo ID & proof of address).

---

## TAX

Every person who works more than 30 days or resides longer than 90 days in Switzerland is liable to local tax. Tax rates vary depending on the canton and community.

Those holding a C permit (or B if income exceeds CHF 120'000.–) will receive tax forms to complete and submit, whilst others will be taxed at source (deducted from their monthly salary).

There is a tax calculator available on the tax office website should you wish to estimate your annual tax liability.

The following taxes exist:

**Income tax:** based on the level of income earned – payable to the canton.

**Asset tax:** levied on total existing assets – payable to the canton.

**Council tax:** based on income and assets – payable to the community.

**Federal tax:** based on the income of individuals – payable to the federal government.

**Inheritance and gift tax:** tax levied on the assets inherited from an estate in the event of death (inheritance, bequest) or due to a donation by living persons.

**Capital gains/property tax:** Special Municipal income tax on the profit from the sale of private property.

**Source tax:** Special form of levying income tax at source if the ordinary means of collecting tax is not possible, for example those with residence abroad or on a shorter term working permit. Applies to the state, local and direct federal taxes.

## THREE PILLAR PRINCIPLE

The social system in Switzerland consists of three pillars, protecting against the economic consequences of old-age, invalidity and death:

### 1st Pillar: AHV/IV/EO/ALV – with the aim of protecting livelihood

All persons living and working in Switzerland contribute financially to the state pension funds: Old Age and Survivors (OASI), disability insurance (IV), income protection (EO) and unemployment insurance (ALV). Contributions are split and paid equally by employer and employee.

### 2nd Pillar: BVG and LAA – with the aim of securing the standard of living.

The occupational pension plan is mandatory for employees in Switzerland and contributions are paid equally by employer and employee.

### 3rd Pillar: private pension plan, aim to secure individual choice.

Pillars 3a (fixed provision) and 3b (unbound provision) provide a private pension and improved standard of living at retirement age. As this is an optional and

private plan, contributions are paid by the insured individual.

## HEALTH INSURANCE

Health insurance (basic insurance) is mandatory for the whole population in Switzerland regardless of income. The community office will request confirmation of basic insurance cover within 3 months of arrival. Exemption is possible only in exceptional cases. Refer to the Ausgleichskasse Zug for further information.

## HEALTH INSURANCE SUBSIDIES

Health insurance companies increase premiums regardless of income and assets, leading to serious financial burdens to some. Low-income families can apply for financial assistance from the Canton to subsidise their premiums. Applications can be obtained from the appropriate community office. Deadline is 30 April.
